The Beatles ,The Rolling Stones & The Power Of Black Music

LaRome Armstrong

The Beatles ,The Rolling Stones & The Power Of Black Music LaRome Armstrong

This book takes a look at The Beatles and The Rolling Stones from a unique Black perspective .It pays tribute to both super groups while showing the honest and true fact that the groups were simply British White artists who followed the leads of their Idols of the music world who were profoundly Black artists in America. The unique sound created by both groups was a testament to the original sound of Black Music in America.... The book also focuses on racial problems that was and is still presently taking place in America. The Beatles and The Stones were both benefiting from Black Music which they reintroduced to White America, due to the obvious denial White America had as a collective.
