Anthony Eden : A Biography Robert Rhodes James

Eden was Neville Chamberlain's foreign secretary in the 1930s, held the same position under Churchill during World War II and succeeded the latter as prime minister in 1955. Asked by Eden's widow to undertake the project, James a distinguished historian (*The British Revolution*, etc.) and member of Parliament was given access to Eden's private papers, including revealing correspondence with Churchill. The biography sheds new light on Eden's 1938 resignation over Chamberlain's policy of appeasement; his contribution to the 1954 Geneva conference (James argues that Eden "virtually single-handedly" kept America out of a war in Indochina); and examines the full context of Eden's controversial leadership during the Suez crisis of 1956. A sympathetic but not uncritical portrayal of a complex figure who "brought honor and dignity, kindness and loyalty to the often grubby trade of politics." Photos.
