This is the Novellum Ebook Works Illustrated Classics 2011 Edition of From The Earth to The Moon and Round The Moon, by Jules Verne.

Originally published separately, the two novels From The Earth to The Moon of 1866 and Round The Moon of 1870 together form one of Verne's four Extraordinary Voyages - the iconic works that cemented his position as the greatest pioneer of science fiction. The two novels are presented here together to let the reader travel seamlessly with Verne's characters, through a remarkable story that presages the Apollo program in many ways.

Peppered throughout the full, beautifully presented text are over 200 high-resolution illustrations, including maps and finely-detailed photography of the real-life earth and lunar locations of the story, giving a clearer view than ever of Verne's world, and showing the incredible insight with which he predicted and inspired spaceflight.

Illustrations are presented with informative captions, and in high definition, allowing the Kindle's full-page zoom function to explore them in detail, and active chapter links are provided to navigate crisply through this classic tale of adventure:

? CHAPTER I: THE GUN CLUB...

? CHAPTER II: PRESIDENT BARBICANE'S COMMUNICATION...

...

? CHAPTER VII: THE HYMN OF THE CANNON-BALL...

? CHAPTER XXVI: FIRE!...

...and all the other gripping chapters of these two timeless books, presented here together in a superlative edition.
