John Buchan, Wilkie Collins, Edgar Allan Poe, Arthur B. Reeve, Carolyn Wells

Core blimey, mate! It's **British Mystery Multipacks Volume 11**, a crackling cornucopia of classic cozies from across the pond:

### **The Murders in the Rue Morgue** by Edgar Allan Poe, and its sequel **The Mystery of Marie Roget**

Guest US author Edgar Allan Poe invented the detective genre with these twin tales featuring Parisian criminologist C. Auguste Dupin. In *The Murders in the Rue Morgue* the French supersleuth investigates the savage murder of a mother and daughter. In the sequel, *The Mystery of Marie Roget*, Dupin is on the hunt of a killer in a case based on the true story of Mary Rogers, a saleswoman at a cigar store in Manhattan whose body was found floating in the Hudson River in 1841.

### **The Lawyer's Story of A Stolen Letter** by Wilkie Collins

An early detective mystery, probably influenced by Poe's Dupin tales. The narrator is a lawyer who contrives, in a series of ingenious moves, to steal back an incriminating letter from a blackmailer.

### **Fountainblue** and **No Man's Land** by John Buchan

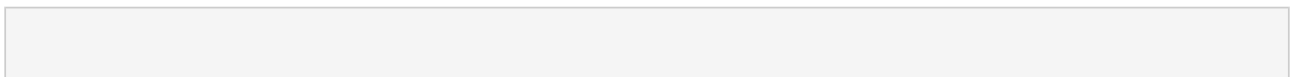

*Fountainblue* is the story of a rich man who returns to Scotland believing he has everything he needs in life - until he encounters Clara Etheridge. But he must compete with a local man for her love. A misadventure at sea forces the situation to a crisis. *No Man's Land* is an occult mystery about an ancient culture in the Pictish land of Scotland.

### **The Clue** by Carolyn Wells

A Fleming Stone mystery from the golden age of detective fiction. *The Clue* falls squarely in the tradition of two favorite mystery sub-genres – the Big House Mystery and the Locked Room Mystery.

### **The Dream Doctor** by Arthur B. Reeve

Craig Kennedy is a scientist detective at Columbia University similar to Sherlock Holmes and Dr. Thorndyke. He uses his knowledge of chemistry and James Bond-like gadgets in his work such as lie detectors, gyroscopes, and portable seismographs.
