Observational Astrophysics (Astronomy and Astrophysics Library)

Pierre Lena, A. R. King

Observational Astrophysics (Astronomy and Astrophysics Library) Pierre Lena, A. R. King

This book presents a comprehensive, unified view of the observing methods and tools of contemporary astrophysics. The collection of information coming from the celestial sources, the methods to process it, the fundamental laws of physics which control it are the subject of the book. Recent development in spatial interferometry, new detectors, image restoration methods are presented. The level is for graduate students and researchers in astrophysics or in engineering.
