Bodyweight exercises are fast rising in popularity and naturally carry several benefits. These exercises do not involve any type of machine or equipment or free weights. The person makes use of his own bodyweight as resistance for his workouts. One can easily include some bodyweight exercises in their regular fitness routine and some good examples are crunches, and lunges, as pull-ups, push-ups, etc. Now, there is no need to go to gym and make use of those equipment or invest in weights, when you can rely on your body weight for exercising.

Don't waste time, make this change today

One of the major advantages of this kind of training is that it is very stimulating for the nervous system. The simple act of moving and using your body weight through space, leads to stronger connections between your brain and body. As your body swings, climbs, pulls, and jumps through the air, you are actually moving your body as a whole and this is what you were born to do and not make use of your body in parts. When executing callisthenic exercises, we find that we are moving around in space and are not making use of barbells and machine exercises

Here Is A Preview Of What You'll Learn...

- The Incredible Bodyweight Exercises
- Bodyweight Training vs. Weight Training
- The List of Common Bodyweight Exercises
- The time-saving body weight workouts
- And, much, much more!
