4. Illustrated

About Madame Bovary by Gustave Flaubert

Madame Bovary (1856) is the French writer Gustave Flaubert's debut novel. The story focuses on a doctor's wife, Emma Bovary, who has adulterous affairs and lives beyond her means in order to escape the banalities and emptiness of provincial life. Though the basic plot is rather simple, even archetypal, the novel's true art lies in its details and hidden patterns. Flaubert was a notorious perfectionist and claimed always to be searching for le mot juste ("the precise word"). When the novel was first serialized in La Revue de Paris between 1 October 1856 and 15 December 1856, public prosecutors attacked the novel for obscenity. The resulting trial in January 1857 made the story notorious. After Flaubert's acquittal on 7 February 1857, Madame Bovary became a bestseller in April 1857 when it was published as a single volume. The novel is now considered Flaubert's masterpiece, as well as a seminal work of literary realism and one of the most influential novels. British critic James Wood writes in *How Fiction Works*: "Flaubert established for good or ill, what most readers think of as modern realist narration and his influence is almost too familiar to be visible".
