The Kissing Hand has developed such a following that many libraries cannot fill the demand each year before the start of school. This sequel is also quite sweet. Now beyond his kindergarten separation anxiety, Chester has a new problem: dealing with his younger brother, who plays with his toys, pulls his tail, follows him around, and even shares his mother's gift of a "Kissing Hand" (Mom kisses Chester's palm, and Chester can transfer the kiss to his cheek whenever he needs comfort). Chester's mother reassures him that she will never run out of Kissing Hands. In fact, she has a spare for Chester to give his brother when he needs a big brother's care. Teeming with details, Gibson's paintings depict an idyllic woodland populated with friendly beasts, birds, and bugs that seem to pause and take an interest in the raccoons' conversations. The focus of the artwork, as well as the story, is clearly on the loving mother-and-child relationship.
