Eureka Edgar Allan Poe, Stuart Levine, Susan F. Levine

Scholarly annotated edition of Poe's Eureka; Originally published in 1848, Edgar Allen Poe's Eureka stands as the single most important expression of the philosophic views on which all of his literary endeavors depend. Put in the context of Melville's Moby Dick, Thoreau's Walden, Whitman's Leaves of Grass, and the music of Liszt and Wagner, it is an explosive, startlingly unconventional creation of the High Romantic era. what its future might be, this user-friendly critical edition is also the first to put Eureka in proper context. It includes Poe's proposed emendations to the text and sources and explains the setting in which it was produced, tying Eureka to world trends in philosophy and fast-breaking news in astronomy. To compile this definitive text, the Levines traveled to the special collections departments of various libraries to examine Poe's own notes on the various drafts. They also consulted with Poe scholars, classicists, and historians of astronomy. The result of their meticulous scholarship is a deep, broad, and thoroughly useful volume, essential for Poe scholars and valuable to anyone interested in American literature or the roots of science fiction.
