A DESIGN PROJECT on Gasification of Coal for Production of Ammonia Engr. Muhammad Waqas Farooq

A Design Project is always the most and foremost important aspect of an Engineers life. Designing of any Engineering Project requires a very keen eye on processing equipment's regarding their exact selection and implementation. Designing of any industrial equipment requires exact calculation of Energy and Material Balances. Plant Safety and Plant Location selection is also the work of engineers, which needs a very safe and steady approach before finalizing the decisions. Above all Engineers will never forget about Cost Estimation throughout designing of each single industrial equipment. Playing a small role in ensuring the basic steps in designing and guiding Fresh graduates towards designing is the main objective of this book.
